MUS is a Self-Funded Plan –

What does this mean?

- All MUS benefit plans (medical, prescription drug, dental, and vision hardware) are self-insured (self-funded).
- Premium contributions go directly into a fund, which is used to pay the cost of benefits for MUS Plan participants who experience illness or injury.
- To keep the Plan financially sound and affordable, it is important that all Plan participants use their benefits responsibly.
- Plan Participants are expected to pay a portion of their medical costs in the form of annual deductibles, percentage coinsurance, and/or flat dollar copayments.
- These cost-containment features are part of the MUS Plan design, so Plan funds will be available should a high-cost medical emergency or a catastrophic illness strike a Plan participant.

Copay Max Plus Program — Administered by Navitus

On April 1, 2022, the MUS began offering a Copay Max Plus Program to obtain copay assistance on your behalf for certain eligible medications. This copay assistance program will manage expenses for eligible medications that have manufacturer-funded copay assistance programs available, while lowering both your costs and the Plan's overall costs.

Under the Copay Max Plus Program, the amount you pay for eligible medications may be set to the maximum of the current MUS Formulary benefit tier levels, \$0, or the amount determined by the manufacturer-funded copay assistance programs. To take advantage of this pricing, you will be required to remain enrolled in Navitus' program for obtaining manufacturer assistance, including copay assistance. Amounts paid by manufacturers on your behalf (along with other payments from manufacturers, such as manufacturer coupons) will not count toward your annual Out-of-Pocket maximum. Instead, only those payments made directly by you will count toward your Out-of-Pocket maximum. Once manufacturer-funded copay assistance is exhausted, the amount you pay will be no more than your MUS Formulary benefit tier levels. If a specialty medication does not qualify or is removed from the copay assistance program, the copay will default to the medications current MUS Formulary benefit tier levels.

****** This benefit is not applicable to MedicareRx enrollees.***
